THANK YOU FOR YOUR SUPPORT TO THE K & H NEIGHBORHOOD NETWORKS!

The Learning Centers are committed to providing a non-threatening technology and educational based experience for the residents of privately owned HUD Federal Housing complexes and the community at large. The goal of this computer and educational resources experience is to empower individuals to become more self-sufficient, employable, and economically self-reliant.

Neighborhood Networks is not a grant program. HUD works behind the scenes to encourage the creation and expansion of Neighborhood Networks centers by guiding property owners, managers, and center staff members through the center development process and by providing limited financial assistance.

"People helping people help themselves"
